

### Stewart has the Documents.

Washington, Sept 4.—Sen. Stewart has secured the original silver demonetization bill of 1873, and another copy of the measure which went to the House, intimated and erased, and generally tampered with, and will present them in his speech tomorrow on "The Real History of the Demonetization of Silver." It is said that he will attack Sherman savagely.

DEAR SIR:—Having suffered a great deal from headache for years and being unable to get relief until it would wear away of itself. I saw Krause's Headache Capsules advertised, I tried them and now am never without them, finding it the only remedy that will give me relief. When I now find a headache coming on me I take a capsule and find the relief instantaneous.

Respectfully yours,

G. H. WRIGHT,

Boston, Mass.

The Report says out of 112,000 shares in the mine the pending assessment of 50 cents on Hale & Norcross had been paid on 58,500 shares up to 11 A. M. Saturday. This left 53,500 shares unpaid. During the recent little flurry in the market the holders of 4,000 shares came forward and paid their assessments. This shows what a little activity in the stock can accomplish. The delinquent sale will be held September 8.

### The Foot-Race Fizzle.

The little 75-yard foot-race kept Main street in a turmoil all Sunday afternoon. Finally the parties ran, and Miller won easily in the slow time of 10 1/2 seconds. Almost any Carson boy can do as well. The Powers crowd attempted some jobbery, but couldn't work it.

### NEVADA'S FUTURE.

Bob Fulton Takes an Encouraging View.

The Examiner of Sunday has the following interview with Bob Fulton of Reno:

"Within the next two or three years," he said last evening, "you will see Nevada having the most prosperous times she has ever known. We have not had a failure during all this hard Summer. We owe next to nothing as a State, as counties, or as individuals, in comparison with other communities. We raise 50,000 head of the finest beef. We have 250,000 mutton sheep for market. We grow 100,000 tons of alfalfa, several thousand tons of wheat, and many thousand tons of the finest kind of potatoes, and apples, honey and wool, in addition to gold, silver, lead, copper, salt, boxax, soda and iron, etc., are shipped. All these are cash products, and there are not so many people to divide the proceeds among as in other places, so those who do business in Nevada always do well.

"Even if no more people come in we will know prosperity. The people of other States need what we have to sell and they will soon begin to buy again. The Mid-winter Fair is going to absorb everything eatable and drinkable that Nevada can send—the best potatoes, the choicest apples, the whitest honey, to say nothing of the beef, mutton and pork we have fattening now.

"Within a short time the silver question will be settled so we can either mine at a profit or devote our energies to business that we know will pay.

"This panic has released more money and men from old lines of enterprise than ever was known before and they will be seeking new fields. Hard times in old countries is good for new ones. The West has been benefited by every crash the country has ever had. Even now half a dozen railroads stand on the eastern edge of the great basin casting longing eyes towards the Pacific. Those which live through the storm, especially railroads like the Burlington, which has just declared a dividend, can borrow oceans of money, and some of them will race across Nevada for San Francisco. Such a movement cannot fail to help every interest even the old roads.

"The impression has been formed that Nevada would be dead but for silver mining, and that the only hope of the State was in a restoration of free coinage. Anything that would add to the price of silver would undoubtedly add to Nevada's prosperity, but because we cannot mine our silver at a profit is no reason why we should not develop other resources. We are opening gold mines in several places, notably in Humboldt county and near Wadsworth, in Washoe county. We have hills that assay 63 per cent iron and 11 or 12 aluminum. We have tin, copper, nickel, lead and antimony that bring a profit. We ship hundreds of tons of gypsum, which is made into plaster of paris on the bay shore. We send out big shipments of soda and borax, but greatest of all we sell you hay, wheat and potatoes that we expect to carry off medals at the Columbian exhibit with as well as at the Midwinter Fair as we did at New Orleans.

"Throwing out all the mountain lands and those out of reach of water, we have sufficient to make a good State, as good as Indiana or Maine or South Carolina. We have any quantity of fine land well watered, but uncultivated, used for pasture only, that would support a family on each subdivision. Whole valleys of many thousand acres abundantly supplied with water have only a family or two and sometimes only a cattleman's headquarters. With a climate and a soil that will raise anything that will grow in New York State, there will be a demand for Nevada land, and when it comes values will be doubled rapidly.

"Every country has had to go through just such a time as Nevada is having now. It is a consistent step in State growth. California, Montana, Colorado and every part of the country have had times when it seemed as if there were no value to anything in the way of land."

### STANDS BY HIS COLORS.

Mr. Newlands' Maiden Talk in the House.

Mr. Newlands made his first speech in Congress on August 22nd. It was regarded by the friends of silver as one of the most logical speeches on the subject made on the floor of the House.

In the opening of his remarks Mr. Newlands clearly defined his political position. He said:

"I am the sole representative on this floor of the State of Nevada, a State which has suffered more than any other portion of the Union from the discriminating legislation against silver. I am also the sole representative on this floor of my party. The people in Nevada, recognizing the fact that the platforms of both the old parties were intended to mean one thing in the East and another thing in the West, and feeling assured from the record of the candidates that the election of either meant disaster to the cause of bimetalism, formed an independent organization, called the Silver party of Nevada.

Their hope was that the contest between the two old parties would be a close one, and that the independent vote of the silver States, united with the third-party vote elsewhere, would hold the balance of power in the electoral college and would either secure the election of a new candidate favorable to the silver cause, or secure from one of the existing candidates substantial concessions to that cause. The overwhelming victory of the Democratic party in States hitherto Republican rendered that hope futile; but their expectations were realized and are realized to-day, so far as the party platforms are concerned; for we find members in this House construing these party platforms in different ways, according to the interests of their section, their locality or their individual views of the monetary question, without regard to party discipline or the unity of party faith.

### A Convict's Escape.

On Sunday between 4 and 5 o'clock Walter Barth a convict employed in the engine room of the State Prison made his escape.

He crawled up the wall back of the engine house where he was secure from observation.

His tracks were followed to Clear Creek where they were lost in the darkness.

Warden Bell and one of the prison guards started after him. It is supposed that he stole a rifle from the range of the Carson Guard and also one from Little's ranch near Clear Creek. He was convicted not long ago of horse stealing and sentenced for seven years.

He knows the ground well between here and the California line and has many friends and sympathizers along the road. He is a cunning daring fellow and if he is as well armed as supposed, he will be apt to give anyone who follows him a lively fight.

Following is a complete description: Height, 5 feet 4 inches, weight 154 pounds; complexion, dark; color of eyes, dark gray, small, deep set and peculiar; color of hair, dark brown or black; size of foot, 7 or 8; vaccine mark on right arm; small brown mole on top of left shoulder; breast and legs covered with growth of black hair; six red or brown moles on back of right shoulder; three on back of left shoulder; small black mole on right side of neck; front teeth full; two or three back ones decayed; joint of little toe right foot enlarged.

### The Chedic Case.

The case of Hully vs. Chedic an offshoot of the famous Simpson-Chedic case occupied the attention of the District Court yesterday.

The jury brought in a verdict for Mrs. Chedic but it being an equity case, argument will be presented to-day as to whether judgement shall be entered. The amount sued for was \$2165.

### An Infamous Outrage.

On Sunday the Sheriff found a horse lying in the sagebrush between here and Empire, that had been badly injured by parties who had been trying to break him to ride. He had been lying in the sun for two days without food or water. The Sheriff mercifully shot the poor beast. The parties who left the horse in such a condition ought to be legally dealt with.
